PACIFIC

Holiday feeling included

Enjoy one day being to the sea – wherever you are on your holiday. The new PACIFIC always gives you the feeling of having a camping site close to the beach. Even when the sound of the sea rushing and call of the sea-gulls are missing – the fresh optic and high quality equipment will put you into the holiday mood.

Especially the design of the PACIFIC sets new highlights with azure-coloured smooth sides and trendy interior. Materials and colours are chic combined and reinterpret the maritime design in a completely new way. This is also the reason why the decision for one of the available upholstery types will be easy: whether the lineal design such as "PACIFIC" or floral such as "ISCHIA" – it's up to your taste. Both of them complete the general appearance of the interior in a harmonic way.

The PACIFIC also demonstrates that a fine caravan design has not to be expensive: with the additional equipment for the PACIFIC you can save money and get the chance to know the true promise of the excellent comfort.

Three layout options for couples or family with children are available for selection. The compact lengths and the exterior width of 230 cm provide spacious living and driving pleasure while being away from home.

Secure a permanent camping site close to the beach for you – at your Dethleffs dealer location!

Further pictures and information can be found at www.dethleffs.de.

► 530 SK / ISCHIA

The highlight for children! The bunk beds with large lying area (100 kg load capacity) with laundry cupboard and storage rack. When needed a bunk bed with three sleeping berths is possible.
