A CONFIDENT DECISION

„Do you belong to those people who enjoy creating their lifestyle as cultured as possible? Who do not want to be surrounded by daily routine – just whilst being away? Then we would like to invite you to see the new CARALINER – a unique luxury caravan.

Its mobile similarity to the extravagant Premium Liner model highlights this caravan. It begins with the unique design concept with elegant shapes and prominently formed GRP front and rear parts and still does not finish with the fluently shaped interior with phenomenal illumination concept. It is a matter of course that this exceptional caravan spoils you with luxurious equipment.

When you would like to enjoy the beautiful things in your life more intensively then it is the right time for a luxury and precise caravan: the CARALINER

⁽¹⁾ with HPL high-gloss fronts, working surface made off mineral compound and Spinflow-3-burner-hob cooker (option)

► Luxurious kitchen centre ⁽¹⁾

► Good help: dish washer with only 7 l water consumption per rinse cycle (option)

► **765 DBM** Blurred shapes and elegant material combinations represent the interior. Cypress Villa with cream-coloured HPL high-gloss fronts and MURANO real leather cushion (both as option)

INNOVATION MEETS DESIGN

The furniture in the CARALINER is like a casting with elegant swings and blurred shapes continuing throughout the vehicle, available either with wooden style or, when desired, with cream-coloured high-gloss overhead locker doors. The clearly drawn overhead lockers with integrated illumination stripes (option) invite to the land of relaxation. Especially the elegant, light and air flooded travel lounge will give you the feeling of a luxury yacht. The cooled air is spread extensively and draft-proof via the staircase-shaped plinth which is linked to the air conditioning system.

The sanitary room and the separated shower cubicle can be connected by special door adjustments resulting in spacious and hidden change- and bathroom.

The awning rail is integrated into the complex shaped skirt contours which are fitted all around the vehicle and a nearly hidden canapé can be selected as an option.
